treatment
statements.

QSS

Quick Separation Soap

This is a powerful degreaser which quickly cleans soiled surfaces. It enables emulsified oils and grease to rapidly recombine into a separate phase for easy removal by most oil/water separators and recycling systems. **QSS** is biodegradable and safe on washable surfaces.

DIRECTIONS FOR USE:

- DILUTION:** 1 part **QSS** to 10 parts water
pH - 12.5* (13 oz. per gallon):
APPLICATION: Heavy degreasing of engines, vehicles, equipment and components, concrete floors.
- DILUTION:** 1 part **QSS** to 20 parts water
pH - 12.0* (6½ oz. per gallon):
APPLICATION: Moderate degreasing, heavy soil removal on vehicles and equipment components and other hard surfaces.
- DILUTION:** 1 part **QSS** to 30 parts water
pH - 11.6* (4½ oz. per gallon):
APPLICATION: General cleaning of oily/soiled surfaces. Also for preparation of surfaces prior to coating or painting.
- DILUTION:** 1 part **QSS** to 64 parts water
pH - 10.6* (2 oz. per gallon):
APPLICATION: Exterior vehicle washing. Washing of panels, siding, flooring, etc. Can also be used as a spray on/wipe off solution for all washable surfaces.

In all applications, **QSS** can be sprayed on, allowed to soak, agitated or brushed if needed, and rinsed off with water. This process may be repeated for stubborn applications, or you can meter **QSS** through pressure washers and steam cleaners. ***NOTE:** This is the pH of **QSS** at this dilution ratio. The pH should be lower when the wash water is received at the oil/water separator due to the added dilution during rinsing.

Before using, consult Material Safety Data Sheet for further information and precautions. Manufacturer's Liability limited to purchase price of this product. USE ONLY AS DIRECTED.

PRECAUTIONARY STATEMENTS:

Eye and skin irritant. Do not get in eyes, on skin, or on clothing. May be harmful if swallowed.

PRACTICAL TREATMENTS:

IF INHALED: If breathing becomes difficult. Move to fresh air. **IF IN EYES:** Immediately flush with plenty of water for at least 15 minutes. Get medical attention. **IF ON SKIN:** Wash with soap and water. Get medical attention if irritation persists. Remove and wash clothing before reuse. **IF SWALLOWED:** Drink 2 glasses of water. Get immediate medical attention.
